

Internet Use Permission Form for 8-12 Year Olds
Sunnyvale Public Library

The World Wide Web contains a wide variety of information on many subjects, and it allows access to ideas and information from a multitude of resources world wide. Because the information and ideas are presented for individuals within a wide range of ages and backgrounds, some material may be considered offensive, controversial or disturbing.

The library does not control, filter or monitor materials that can be accessed through the Internet or World Wide Web.

It is the responsibility and right of parents to determine and monitor their children's use of Library materials and resources, including the Internet. Each parent needs to decide which resources are appropriate for his/her own child.

I have read the Parental Responsibility for Internet Use statement and I authorize my child's use of the Internet and World Wide Web at the Sunnyvale Public Library.
